Part A: Pupil Premium Strategy Plan

Statement of intent

*You may want to include information on: What are your ultimate objectives for your disadvantaged pupils? How does your current pupil **premium strategy plan work towards achieving those objectives? What are the key principles of your strategy plan?***

At St Anselm's, we believe that children learn best when they feel happy, secure and well cared for, therefore our first priority is the provision of strong pastoral care in a nurturing environment. We aim to develop in our children a passion and love of learning by providing an enriched, broad and balanced curriculum; that delivers a high quality, inclusive education for all, so that each may reach their full potential. Inclusion at St Anselm's ensures that teaching and learning meets the needs of all pupils. The needs of socially disadvantaged pupils are recognised and catered for within our curriculum. Barriers to learning could include: weak communication and language skills, lack of confidence or self-esteem, attendance and punctuality issues, more frequent behaviour difficulties. There may also be some complex family situations which prevent a child from flourishing. Vulnerable pupils with social and emotional needs are supported to improve their health and wellbeing, thereby removing barriers to learning and consequently fuller access to curriculum provision. It is our aim to ensure that vulnerable pupils similarly have access to a variety of enrichment activities such as the arts and extra physical activities funded from the pupil premium grant so that they too can develop their talents to the full. We have developed an extended extra-curricular provision to support this aim.

Our ultimate objectives for Pupil Premium children are:

- To narrow the attainment gap between disadvantaged and non-disadvantaged pupils
- For all disadvantaged pupils in school to make or exceed nationally expected progress rates
- To support children's mental health and wellbeing to enable them to access learning at an appropriate level.

Our plan will work towards these objectives by:

- Ensuring Quality First teaching is in place for all pupils, in all lessons,
- Rigorous tracking and monitoring of pupils' progress which identifies the priority for individuals or groups to receive extra provision funded by the pupil premium to help them achieve
- A clear assessment process to identify areas of achievement and carefully plan next steps for learning.

The key principles of our strategy plan are:

- Targeted interventions to effectively support children and enable access to learning
- Interventions are provided by suitably trained and qualified teachers and teaching assistants.

St. Anselm's Catholic Primary School Pupil Premium Strategy Statement 2022-2023

- Enabling access to enrichment activities such as sports, specialist music lessons, STEM, languages and the arts.
- Ensuring availability of wellbeing and mental health facilities including a learning mentor, school counselling service and Mental Health Lead, and the provision of a Mental Health First aider.
- Ensuring opportunities to express themselves through Pupil Leadership opportunities, including School Council, Green Ambassadors, Wellbeing Ambassadors, GIFT team (pupil chaplains) and external visits and trips.
- Targeted daily early morning catch-up sessions for children achieving significantly below that expected for their age.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p>Academic barriers:</p> <ul style="list-style-type: none"> • A lower percentage of pupil premium children are achieving above expected in Reading, Writing and Maths in comparison to the cohort. • **37% of our children eligible for PP also have SEND needs**
2	<p>External barriers:</p> <ul style="list-style-type: none"> • Increased social and emotional needs / home pastoral care concerns for some children eligible for pupil premium - **27% needing additional support from Educational Psychologist, CCS Play Therapist or Wellbeing and Learning mentor. • Analysis of attendance data of children who were at the school in the previous academic year shows PP children had an attendance rate 3% lower than the school average. Current attendance data shows we have narrowed this difference to 1.78% (November 2022) • Poor attendance can affect learning opportunities and progress
3	<ul style="list-style-type: none"> • Some children eligible for pupil premium may not have the same opportunities for enrichment activities as their cohort: sporting clubs, music.
4	<p>Barriers arising from current financial climate:</p> <ul style="list-style-type: none"> • Some PP families have experienced loss of work, financial hardship and changes in home circumstances. • A shift in children moving house, following changes of circumstances at home. • Some parents have reduced expectations of their children in terms of workload, homework and achievements. • Recent data shows PP children working at ARE in Reading - 58%, Maths - 64%, Writing - 54%

St. Anselm's Catholic Primary School Pupil Premium Strategy Statement 2022-2023

	<ul style="list-style-type: none"> Lack of sustained engagement beyond initiatives, booster groups and enrichment activities. Attendance at boosters and various clubs can dip and it is difficult to engage in a sustained manner, week on week.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.

If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?
