

Antarctica

The last wilderness

Who are the champions of Antarctica?

- The champions of Antarctica are groups of children like us all around the world who are helping Antarctica survive the vicious voting in 2041 that will decide the fate of this magical continent.
- We are working with the 2041 foundation to make sure Antarctica stays the peaceful natural habitat it is now. 😊

Where is Antarctica?

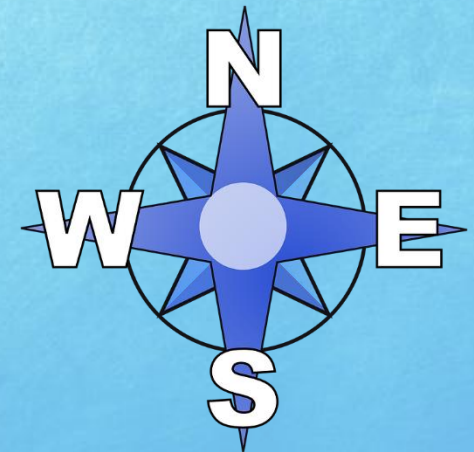

As you can see, Antarctica is the white coloured continent at the bottom of the world (also known as south).

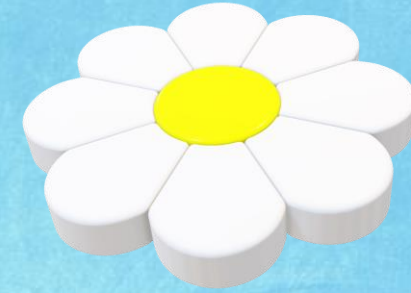

A continent is a large solid area of land. The earth has seven continents. , they are [Asia](#), [Africa](#), [North America](#), [South America](#), [Antarctica](#), [Europe](#), and [Australia](#).

Out of all of them, Antarctica is the driest and coldest

[Let's explore Antarctica - BBC Bitesize](#)

Why is 2041 so important?

- The year 2041 is a very important year for us in the future.
- It is the year many of us – as adults – will be voting on the future of Antarctica
- These votes will decide if Antarctica will be destroyed and made into huge cities.
- One person is already trying to fight for Antarctica; Robert Swan, he is working with the 2041 foundation to save this beautiful continent.
- As many of us don't want that happening it's now up to us to make a difference!

What can **we** do to help?

- Things you can do are:
- Reuse, Reduce and Recycle!
- Fix old and broken objects
- Eat foods seasonally
- Go litter picking!
- Sow more plants and trees
- Bee green!!

Conclusion

In conclusion, I think we should all try to protect Antarctica.

It is EVERYONE'S duty to look after this continent!

We're all in this together!!!
