WHAT IS ANTARCTICA?

- ▶ Antarctica is a continent in the southern hemisphere and is pretty much the only place in the world that doesn't have any buildings, vehicles
 - ▶ Antarctica is one of the coldest places in the world with an average temperature of -57C
 - ▶ Antarctica doesn't belong to just anyone or any country but it belongs to us all
 - ▶ Antarctica is almost completely made of ice and snow
- 
- A series of three parallel white diagonal lines extending from the bottom right corner towards the center of the slide.

ANIMALS IN ANTARCTICA

Most animals in Antarctica include

- .Penguins
- .Orcas [killer whales]
- .Seals

And whales

All of these animals above that live in the Antarctic waters are completely unharmed by humans, but in the past decades micro plastic has been thrown into the ocean leading to krill and fish getting killed affecting the food chain

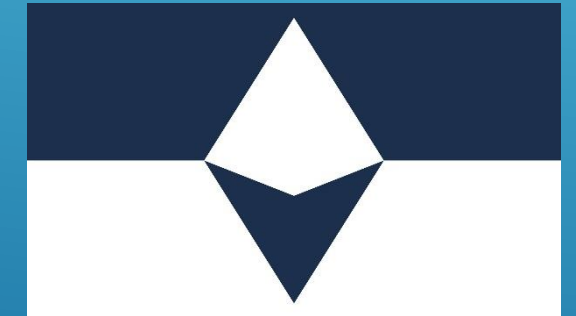

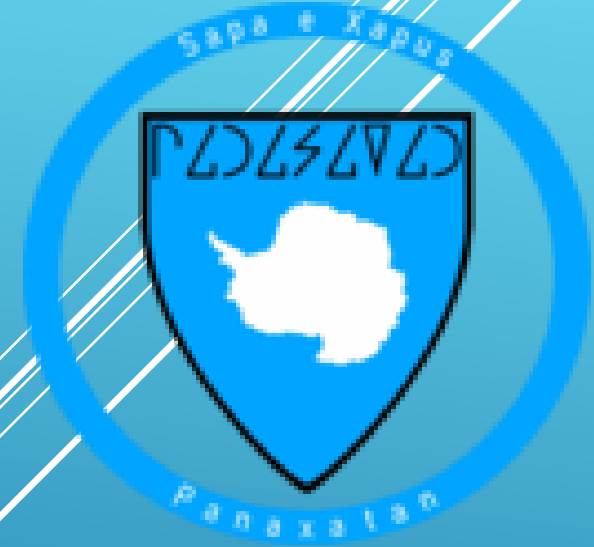

HOW OLD IS ANTARCTICA AND HOW IT WAS FORMED

- ▶ Antarctica first had glaciers at the end of the Devonian period, **around 350 million years ago**
- ▶ Antarctica finally stopped making glaciers around 35 million years ago
- ▶ One by one vast blocks tore away, South America and Africa first, followed by India and Madagascar around 40 million years later. This left the remains of Gondwana (what would become Australia and Antarctica) to drift towards the south

ANTARCTICA SCENERY AND FLAGS

Antarctica has lots of beautiful scenery from the frozen glaciers to the dazzling ocean

THE 2041 MISSION AND FOUNDATION

The 2041 mission is a mission to save Antarctica and preserve it

2041 is an important year because it is when the cooperation of parties will decide what to do with Antarctica and its contents

The leader of the 2041 expedition is Robert Swan who is the first person to walk to both the north and the south poles

WHAT CAN YOU DO TO SAVE ANTARCTICA?

To save Antarctica we have to do three things

- .use reusable energy
- .recycle
- .prevent climate change
